## FINAL REPORT ON OAKLAND HARBOR IS APPROVED BY THE GOVERNMENT.

(Special to the Tribune)

WASHINGTON, Jan. 3.—Colonel Heuer, the United States Government engineer in charge of the improvement of Oakland harbor, is instructed to proceed with the work.

Specifications for dredging the Tidal Canal have been approved and forwarded to him in San Francisco, with instructions to advertise for bids for the work.

Instructions have also been forwarded to Colonel Heuer to settle the railroad company's right of way at Washington street, Fruitvale and proceed with the work.

The following are extracts from

Colonel Heuer's final report on Oakland Harbor now on file with Chief Engineer Wilson:

"The improvement which it is believed the present and prospective commerce of Oakland harbor needs (west of the Tidal Canal) is a channel five hundred feet wide and twenty feet deep at low water extending from deep water in San Francisco bay to Fallon street, thence a channel three hundred feet wide and seventeen feet deep to the tidal basin, and then a channel entirely around the basin three hundred feet wide and twelve feet deep.

Estimated cost, \$816,222.

"In connection with the above estimate it must be said there is a very strong feeling among many prominent business men of Oakland that a twenty-foot depth of channel in this harbor is insufficient for the requirements of commerce.

"It is true that when the harbor was planned in 1874 the number of vessels engaged in commerce of this coast drawing more than twenty-four feet of water was very limited.

"The population of Oakland has increased; the tonnage of commerce entering Oakland harbor has increased something like twenty-fold and now exceeds three million of tons per year. Of this amount, however, 63 per cent

is transcontinental railway freight, which only passes through Oakland in cars and which enters and leaves Oakland harbor on ferry or transit boats drawing, when laden, about twelve feet of water.

"Vessels drawing more than twenty feet cannot enter the harbor at low water, and have to be lightened to enable them to reach the wharves.

"What the aggregate cost of this lighterage amounts to per year has not been ascertained.

"If the cost of the lighterage should be greater than the interest on the cost of the improvement to obtain the increased depth and should affect a large portion of the community it might be

a good reason for making a harbor of increased depth.

"Vessels too deep to enter Oakland harbor can get their cargoes into Oakland by unloading at Long Wharf near the Oakland mole upon paying wharfage and tolls for hauling cargo over the wharf.

"In fact all vessels entering Oakland harbor are charged tolls for lying and unloading at the wharves in the harbor.

"Those who might be largely benefited by an increased depth of channel would be the wharf owners or lessees.

"Most of the increased depth in existing channels would have to be made by excavation in hard pan and would

be quite expensive.

"To excavate a channel 500 feet wide and twenty-five feet deep from San Francisco Bay to Fallon street, thence three hundred feet wide and twenty-five feet deep up to and entirely around the basin would cost \$1,657,515.

"To excavate a channel 500 feet wide and twenty-five feet deep to Chestnut street, thence 300 feet wide and seventeen feet deep to the tidal basin, thence 300 feet wide and 12 feet deep around tidal basin would cost \$985,722.

ASSOCIATED PRESS.

SAN FRANCISCO, Jan. 3.—A Washington special to the Bulletin says: The War Department engineers to

day sent to Congress estimates for improving Oakland harbor. Three different estimates were submitted, as follows:

For a channel 1,500 feet wide and 25 feet deep from San Francisco Bay to Fallon street, Oakland, and for a channel 300 feet wide and 17 feet deep to and around the tidal basin, \$645,232.

For a channel 1,500 feet wide and 25 feet deep from San Francisco Bay to Fallon street and for another 500 feet wide and 25 feet deep to and around the tidal basin, \$1,657,515.

For a uniform channel 25 feet deep all around from the bay to the tidal basin, via Fallon and Chestnut streets, \$985,722 will be needed.

## LORD ROBERTS' ROYAL WELCOME IN LONDON

SOUTHAMPTON, Jan. 3.—A dense fog this morning disarranged the program here for the reception of Lord Roberts, and it was an hour after the appointed time when he arrived. The enthusiasm of the large concourse of people, however, was in no way dampened by the thick pall of mist, and amid scenes of great jubilation, with cheering and patriotic cries, Lord Roberts landed and drove through the profusely decorated streets to the Hartley Institute, where the Mayor, surrounded by the members of the corporation, in full robes of office, presented him with the freedom of the city in a gold key.

The Institute was crowded to its capacity and there was a remarkable demonstration as the Field Marshal, in the uniform of his rank, stepped on a raised platform. The proceedings were most brief, Lord Roberts, in a few words of thanks, referred to the war

in terms similar to those which he used yesterday.

On returning to the railroad station he was greeted with continuous plaudits and the assembled throngs.

At 11:30 A. M. the Field Marshal's train started for London.

OVALION IN LONDON.

LONDON, Jan. 3.—Crowds flocked to points of vantage along the route to be followed by Lord Roberts, from Paddington Station to Buckingham Palace during the early hours of the morning, but the numbers in no way compared with those that gathered at the demonstration in honor of the return of the City Volunteers from South Africa.

Part of the riotous behavior and disorders on that occasion deterred many persons from joining in the public welcome. Warned by the occurrence at the time of the volunteers' return, the authorities today furnished

barriers to prevent crushing, and 15,000 regular troops in addition to thousands of police lined the route, blocked the side streets and were concentrated in the wide spaces to guard against dangerous rushes.

PRINCE THERE

Lord Roberts reached Paddington Station only twenty minutes behind the schedule time. As he descended from his saloon carriage to the platform of the elaborately decorated railroad station he was greeted by the Prince of Wales, the Princess of Wales, the Duke and Duchess of York, the Duke of Connaught and the Duke of Cambridge. The members of the royal family shook hands heartily with the Field Marshal, while the bands played the national airs. The Princess of Wales engaged Lord Roberts in a conversation of some length.

BRILLIANT SCENE

The scene was altogether brilliant.

Everywhere were masses of hunting, troops, ladies in bright costumes, Cabinet Ministers and staff officers.

The people on the stand opposite the carpeted platform could see little but cocked hats and ladies' bonnets.

The First Captain of the Empire, five feet two inches high, was invisible, except in front of the circle. After congratulations had been exchanged, Lord Roberts walked with the Prince of Wales, the Duke of York and the Adjutant General, Sir Evelyn Wood, and reviewed the guard of honor.

The veteran Field Marshal, who appeared to be in perfect health, with pink cheeks, bore himself bravely and with evident enjoyment. He walked down each rank, saluting with his left hand as his right hand is still in a sling as a result of his fall from his horse in South Africa, speaking to the sergeants and occasionally picking out a private for a few words recalling

previous service together.

MEETS COMRADES

After the inspection, Lord Roberts had a few minutes' conversation with his old comrades before he went out into the station enclosure to meet London's multitudes.

ROYAL CARRIAGES

The Prince of Wales, with Lady Roberts, left the railroad station in a royal carriage, drawn by six horses, and escorted by Life Guards, preceding Lord Roberts to Buckingham Palace. The returning Field Marshal was then presented with an address from the municipality of Paddington. After Lord Roberts had replied, the procession was formed, the headquarters staff in six carriages following immediately behind the Field Marshal, who occupied a state carriage escorted by Indian cavalry.

DEAFENING CHEERS.

The Secretary of State for War, Wil-

iam St. John Broderick and the Secretary of State for Foreign Affairs, the Marquis of Lansdowne, were seated in another carriage. A detachment of cavalry brought up the rear. The party proceeded to Buckingham Palace by way of Hyde Park and Piccadilly. Deafening cheers greeted the Field Marshal and his command-in-chief of the forces along all parts of the route. Clubland was ablaze with color and the greatest enthusiasm prevailed. The ladies admitted to the club houses thronged the windows and balconies. The hotels and other buildings were all festively decorated and crowded from top to bottom with cheering spectators.

ROAR OF WELCOME.

The roar of welcome rolled on incessantly until the veteran commander entered the gates of the palace. A few distinguished people were waiting wearily within the somber palace quadrangle in which the gas lamps vainly tried to disperse the foggy steam. The footguards, drawn up within, while without some 50,000 persons were packed together in an effort to get a view of the hero of the hour.

ROYAL PARTY.

The royal party arrived half an hour before Lord Roberts, who was driven into the quadrangle amid a salvo of cheering from the crowds and a dignified waving of handkerchiefs on the part of the bare-headed nobility.

ROBERTS GREETED.

Within the Prince of Wales again greeted the Field Marshal. Everybody by that time, 2:30 P. M., was very hungry, but Lord Roberts would not go to luncheon until he had inspected the Guards. Accompanied by one or two officers, he walked through the lines of men, he asked between the lines of men, making him appear smaller than ever—almost overwhelmed by the immense plumes of his field marshal's hat. When the inspection was over Lord Roberts, the members of the royal family and the General went into the Palace and had a private luncheon, whereupon the crowds dispersed.

### STILL AFTER TRUSTEES IN THE VARNEY ESTATE.

Investigating the Accounts of the Livermore Bank in Superior Court.

The suit of the heirs of the late Thomas Varney against T. H. B. Varney and John Taylor, trustees of the Varney estate, was taken up this morning by Judge Sewall of San Francisco sitting for Judge Ogden.

Judge Sewall rendered a decision recently in one branch of the case, in which he held that the trustees had been guilty of fraud and should be removed. The proceedings today are on the lines of forcing the trustees to make an accounting.

The affairs of the Livermore Bank, in which Varney was largely interested, and which it is claimed was used by the trustees to divert the funds of the estate, were gone into extensively, and especially the manner in which it had been managed since the suicide of H. H. Pitcher, the cashier, who was also a trustee of the Varney estate.

Fred Mathison, who succeeded Pitcher, testified that \$26,323.33 of the notes held by the bank had been paid since April 1, 1900.

It developed under cross-examination by Attorney Wheeler that a number of notes secured by collateral of questionable value had been renewed and the same security taken.

Among this security was a lot of stock of the Farmers' Warehouse Company.

made without security as the investigation was a commercial bank and could not make loans on real estate.

Cashier Mathison also stated that loans had been made on stock in the Ellis Voting Machine Company to a brother of the inventor, Henry Mills. He also testified that the Farmers' Warehouse Company had been exploited by the Livermore Bank, the latter taking the endorsement of the incorporators as security for the money advanced. On top of this individual loans were made to the stockholders on their certificates of stock.

This afternoon the books were up for examination.

CHARGES AGAINST PITCHER

Testimony was brought out to show that Cashier Pitcher had speculated in his own account with the bank's money and that he had dealt in dilapidated counts land under a dummy account in the name of A. W. Foster & Co.

It was also testified to by Cashier Mathison that Pitcher had borrowed from the bank \$25,000 on his personal note. The loan had originally been for a much smaller amount, but had been increased from time to time as it had been renewed. It was stated that the money was used originally by Pitcher in purchasing his interest in the bank.

There was testimony to show that Dr. Roberts of the Sanitarium had been allowed to overdraw his account \$1,500 and was now indebted to the bank in that sum.

Charles R. Wright, a deputy County Assessor, was put on the stand to state land values in Hayward and Eden towns upon which the Livermore Bank had loaned money. The attention of the witness was directed to the Garon property at the corner of Main and Calhoun streets, Hayward.

He was at one time a missionary in India. He leaves a widow, three sons and one daughter.

### CITIZENS BATTLE WITH ROBBERS.

Ohio Desperadoes Rob a Store and Escape in Hail of Bullets.

VAN WERT, Ohio, Jan. 3.—A gang of nine robbers blew the safe of William Hoagland's general store at Cavette, six miles north of here, early today, took \$500 in cash and valuable papers, and escaped after a desperate battle with the citizens.

Soon after the robbers had entered the store they were discovered by Mr. Hoagland, whose dwelling adjoined. He volunteered to open the safe to prevent its destruction, but his offer was declined.

Hoagland summoned a posse of citizens, who arrived in time to hear the explosion of the safe. They opened fire on the robbers and over 100 shots were exchanged.

As the robbers fired they retreated toward the edge of the village, where they had stationed several huggies, stolen from farmers. In these they escaped.

The posse followed for several miles, but the robbers outdistanced them. None of the citizens were hurt. It is thought one of the robbers was wounded.

THE HAGUE, Jan. 3.—Mr. Kruger was disturbed during the night as a result of the slight attack of bronchitis, but he was better this morning. Reports are that the bronchitis is following the normal course.

### DUKE HENRY INSULTED AND QUITS THE HAGUE.

Does Not Like the Way He Has Been Treated By Parliament.

LONDON, Jan. 3.—A special dispatch from Berlin reports that Duke Henry of Mecklenburg-Schwerin, whose marriage to Queen Wilhelmina of Holland has been announced for February 10th, has left The Hague, indignant at the tone of the Parliamentary discussion on the subject of his future position.

Whether this is true or not, there is no doubt that there has been endless trouble connected with the projected marriage.

Queen Wilhelmina has contrived to get up as much fuss about the style of precedence as that experienced in England in 1840, when Queen Victoria was married to Prince Albert of Saxony-Coburg.

Queen Wilhelmina wished Duke Henry to be created a Prince Consort and to be given precedence over her mother, but she was overruled on both points.

On the other hand, her reluctance for her future husband's pecuniary comfort has by no means been equal to her reluctance for his dignity. She has given up her original proposition to allow him a large sum out of her private fortune, and now proposes that Parliament settle

£10,000 a year on him, payable if he survives her.

While the latter is alive Duke Henry will get nothing, according to this plan. There is a very strong feeling in Holland that no allowance for the Duke should be asked from the country, considering the vast property at the disposal of Queen Wilhelmina. Duke Henry's private fortune is inadequate for his position as Prince Consort, and he will, practically, be dependent on his spouse.

## VOICE TOLD HER SHE WOULD LOSE HUSBAND.

Wife Told John O'Brien If He Left Her  
Alone They Would Be Parted Forever—  
Death to Be Investigated.

Coroner Mehrmann has been advised of two witnesses who saw O'Brien fall upon the pavement on Broadway near Third street, taken in the arms of his wife, who, it is supposed, had been sustained a fracture of the skull at that time.

The unusual size of the blood clot found on O'Brien's head, at the point of the fracture, proved that the dead man had been passed over in conjunction with the fact that it was well after 7 o'clock in the evening when he was found unconscious on the sidewalk at Ninth and Webster streets, six blocks from where he fell and fully five hours after the fall.

The passing of the body to the responsibility of the neglectful manner in which the O'Brien case was handled has created no end of unfavorable comment.

When Officer Swain arrived with the patrol wagon to take the reported drunken man to the City Prison, he had his doubts as to the man's condition and therefore had the wagon stop at the Receiving Hospital and requested a physician to examine the man. The doctor found the man's pulse normal, and this Dr. Mehrmann says was quite likely, though exceptional. Nor was any exterior mark visible that might have led Warden Page to believe the man was suffering from any injury.

J. P. Klerman, editor of the Home-Calendar, is O'Brien's brother-in-law, and was present at the autopsy last night. He stated that the dead man's father is one of the leading lawyers in London, England, and he declared that at the time of his death, which he claimed might have been prevented if proper care and treatment had been afforded.

The inquest will be held at 7 o'clock tonight.

## REASSEMBLING OF THE HOUSE.

Olmstead Throws Bomb  
Into the Democratic  
Camp.

Associated Press Dispatches by  
WASHINGTON, Jan. 5.—When the House reassembled today after the holiday recess not more than seventy-five members were present. It had been arranged before the House met that the consideration of the resolution on the bill was to be entered upon today. Immediately after the reading of the Journal Mr. Olmstead of Pennsylvania sprung a surprise by offering as a matter of order a resolution relating the alleged abridgment of the right to vote in Louisiana, Mississippi, South and North Carolina, and instructing the Committee on Census to inquire into the same and report the facts to the House.

The reading of the resolution caused a flurry on the Democratic side. Before it had proceeded far Mr. Richardson of Tennessee, the majority leader, jumped to his feet and interrupted the reading to ask whether the resolution required unanimous consent.

"It does not," replied the Speaker. "It is offered as a matter of privilege."

"I make the point that the resolution does not constitute a matter of privilege," answered Mr. Richardson.

"The reading has not proceeded far enough to determine that point," replied the Speaker.

Mr. Richardson took his seat, but before the clerk could proceed Mr. Underwood of Alabama was on his feet.

"I make the point that there is no quorum present," said he.

The Speaker glanced about the House. Evidently there was no quorum present.

"The Chair will count," he said.

The House was counted and when the Speaker announced 141 present—not a quorum—Mr. Underwood immediately moved an adjournment. The ayes and noes were counted and the result was upon that motion. During the roll call there were hurried consultations on both sides of the House.

The motion to adjourn was lost—65 to 95—present but not voting, 11. The Speaker included himself in order to make up the quorum.

Speaker Henderson held the Olmstead resolution privileged. The minority raised the question of consideration against it, which forced another roll call. The vote to consider the Olmstead resolution was 51 ayes, 82 noes, five present and not voting; no quorum and another roll call was ordered.

At 5 o'clock the House adjourned. The Olmstead resolution remained unacted upon, owing to the lack of a quorum.

## PENDLETON WINS THE FIGHT FOR SPEAKER.

San Francisco Delegation Held a Caucus  
and Gave Support to the Man From  
the South.

Alden Anderson will probably not be Speaker of the next Assembly. His chances that knew no opposition a week after election have been dashed suddenly to the ground, and there seems now to be no doubt but that Pendleton of Los Angeles will carry off the Speakership.

At a caucus held at the Palace Hotel, San Francisco, last night, thirteen of the fourteen members of the House from San Francisco, by unanimous vote, decided to support Pendleton. When the latter came north to announce his candidacy it was understood that he would have the undivided support of every representative south of Tehachapi, provided he could obtain the same support of the San Francisco delegation. This was practically given him at the caucus last night.

It had been claimed by Anderson's friends that at least five of the northern Assemblymen would stand to the last by him. Their hopes were centered on Elisk, Macbeth, Knight, Brown and Butler as being opposed to any Pendleton program. At the caucus, however, after organizing, a resolution presented by Macbeth and seconded by Guilfoyle, endorsing Pendleton's candidacy, was adopted, and with it all of Anderson's hopes.

As the matter now stands Pendleton has more than enough votes to assure his election as Speaker of the next Assembly. There are 59 members and 30 will be a majority in caucus.

## THE LIBRARY MAKES RAPID STRIDES.

Librarian Makes His  
Monthly Report and  
Shows Progress.

According to the December report of Librarian C. S. Greene, read at last evening's session of the Library Trustees, the Oakland Free Public Library has made rapid strides of late and enters the new century with brighter prospects than ever before. The report is as follows:

Volumes added by donation..... 6  
Volumes added by binding..... 6

Total .. 112

During the month I have bought 71 books at a cost of \$5.49. These are indicated in the accession book as usual.

The Yelland fund amounts to \$170.55, leaving but \$75.45 to raise to complete the \$250 necessary to secure the painting desired.

The circulation for the six months of the present year shows an increase of 75 over the corresponding months of the previous year. A slight improvement, but enough to show that the decrease is checked. The library may therefore hopefully enter the new century with a prospect of better things. Respectfully submitted,

CLAS S. GREENE,  
Librarian.

## COMEDY AT THE MACDONOUGH TONIGHT.

So simple and natural is the action of the comedy at the White House Theatre, which King & Norcross bring to the Macdonough Theatre this evening, the auditor is beguiled into the belief that he is looking at a real picture and that he is actually a tourist in the Alps, in one of the valleys of which the scene is laid. The play has therefore a trans-Atlantic flavor, which is quite produced by the odd characters and picturesque and appropriate scenery. In the course of the play the audience is treated to a realistic thunder storm, during which the rain pours down in torrents upon the stage while the lightning flashes fitfully and the thunder booms in the distance. The scene is in the east of twenty people are Minerva Dorr, Frank M. Norcross, Fred Mover, John Panton, Walter Chester, Wm. Clouman, Herbie Norcross, Louise Handolph, W. E. Hitebeck, Guy Coomb.

## HAVE HAD THEIR DAY.

Local Treatments for Catarrh Relieved to the Roar.

The surest and safest treatment for any form of catarrh is an internal remedy which acts specifically upon the blood and mucous membranes. Such a remedy is the new preparation sold everywhere by druggists as Stuart's Catarrh Tablets, a medicine in pleasant tablet form.

These tablets contain in highly concentrated form, well known germ antiseptics like sanguinaria, guaiacol, Red Gum and similar curative elements, and no one who suffers from any form of catarrh, and has experienced the inefficiency and inconvenience of powders, sprays and inhalers will ever go back to such antiquated remedies after once trying so pleasant a treatment as Stuart's Catarrh Tablets and one which gives so much relief in so short a time.

Druggists sell Stuart's Catarrh Tablets at fifty cents for full sized package and their daily use will effectually cure this troublesome and dangerous disease.

The danger from catarrh is that it is a short road to consumption, to chronic stomach catarrh and to catarrh of liver and kidneys.

Most cases of deafness are caused from stoppage of the Eustachian tube as a result of catarrh.

## DAILY INSISTS HE WAS ROBBED.

Peculiar Story of an  
Insane Man Puzzles  
the Authorities.

Although declared insane and ordered by Superior Judge Greene committed to the insane asylum at Stockton, William H. Daly, an aged millman, who came here recently from the Sanger Lumber Mill in Fresno county, declares that his story of how he was beaten and robbed of nearly \$200 by three men on Broadway last Saturday night is no creation of a heat oppressed brain.

Daly engaged a room at the Smith House on Broadway near Sixth a few weeks ago. He brought with him nearly \$300 he had saved from his earnings. He confided in Warden Page at the Receiving Hospital yesterday where he was taken for insanity, that on last Saturday night, while he was standing at Sixth and Broadway, three men attacked him. One struck him on the head, and when he regained consciousness, about three hours later, he found that his money, nearly \$200 in all, had been taken from him.

While the police received no report of the alleged hold-up, and while the authorities had had no previous credence in the story, Mrs. Smith, the landlady, testified at the examination before Judge Greene that her tenant possessed several hundred dollars up to last Saturday night, that he was always sober and orderly, and that on Sunday Daly had told her that he had been beaten and robbed the previous night. It is the opinion of some that Daly was a victim of a hoax, and either through brooding over his lost wealth or as a result of a blow upon the head. The case is puzzling the authorities.

## PROF. ROSS TO GO TO NEBRASKA UNIVERSITY.

OMAHA, Neb., Jan. 5.—A special from Lincoln says:

At a meeting of the executive committee of the board of university regents today the engagement of Dr. Edward A. Ross, lately dropped from the list of professors of the Leland Stanford University, was completed. Ross, it will be remembered, claimed his dismissal from Stanford was due to his brawny views of trusts, railroads and free silver being distasteful to Mrs. Stanford, the patron of the institution, while the official explanation was that his lectures trenchant too closely on a vicious assault on the origin of the Stanford fortune, coming to the memory of Mrs. Stanford's late husband, Ross was also mentioned frequently in connection with an editorial position on Bryan's new paper.

## WANTS HER HUSBAND TO PAY ALIMONY.

Louisa Pereira has given formal notice that her attorneys, Larson & Lemas, will move the court in which her divorce suit against Joaquim Pereira is pending for an order compelling her husband to pay her \$50 per month, amounting to \$600 a year, for maintenance until the divorce action is settled.

The Pereira's resided at San Leandro, where the defendant owns considerable property. According to the wife's divorce complaint, the husband one day last May drove her out of his house and threw her belongings upon the lawn. The divorce suit has been a cross-complaint, alleging infidelity.

## TALKED TO THE SOCIAL DEMOCRATS.

C. H. King of San Francisco addressed the Social Democratic party last night at Fraternal Hall on the subject of the coming of the Twentieth Century. He said that the past century had been notable for its industrial development which had been accomplished through the organization of comparatively small bodies of men. This, he believed, would have a tendency in coming years to prompt mankind to organize co-operative communities through political methods.

BOXING NIGHT AT TELEPHONE OFFICE MARSHAL'S BLUFF. HAYWARDS. FOR ALAMEDA. NOT CALLED.

Clever Entertainment Company Will Open Its New Home in Encinal Next Monday. Officer Got Ahead of the Boys.

HAYWARDS, Jan. 2.-The Misses Mendick, Welch and Alton, committee in charge, are greatly pleased over the success of the masquerade given by Palma Circle, No. 111, Women of Woodcraft, at Native Sons' gymnasium, on Monday evening. The floor was filled with masked and every seat in the hall was occupied. Everybody had a good time. At 12 o'clock Monday night the Rev. Father Lally celebrated high mass in the Catholic Church. "Adagio delia" was sung by the choir, and the choir was sung by Miss Haas and Mr. Debeque.

BOXING NIGHT. This city now has a fully equipped and incorporated athletic club, the first meeting of which, under most favorable auspices, was held in the Opera House Tuesday night. There were several lively "goes" between local boxing specialists. In the first preliminary there were four rounds fought to a draw between T. Caten and Frank Silva. This was clearly conducted on both sides. A second bout was also of four rounds. This was between John Terry and Frank Frate. The principal event was the ten round go between Edward Martin of San Jose and Young Sharkey. Martin was invited against Sharkey on the spur of the moment, the latter's regular opponent, E. Lawrence, refusing at the last moment to go. Sharkey, however, based his declination on the fact that his mother opposed his going into the ring. His acquaintances, however, say that he became afflicted with frigid pedal extremities. Sharkey weighed in at 130 pounds, but Martin at 145 pounds. Despite this disparity, Martin started in Sharkey as a very sticky manner. The bout was for a small purse. Martin Welsh acted as referee.

RAILROAD MEN AT ELMHURST. Plan to Make Themselves Comfortable During Cold Weather.

ELMHURST, Jan. 2.-The employees of the Oakland, San Leandro and Hayward Electric Railway have adopted a plan pursued by those of many other roads in maintaining a room for the exclusive use of conductors and motormen. The room, which contains a stationary wash stand, is heated by electric heaters. The feature which makes the enterprise interesting is that of having each man on the road subscribe 5 cents per month toward defraying the expenses of keeping a box supplied with a new program, black ink brushes, polish and fluid for cleaning shoes. Hereafter the men have had no place to spend their idle moments except in a nearby barber shop or restaurant. It is now possible for the men to have a warm room with daily papers, magazines, card tables and checker boards. Around the room

## PAYING PENALTY OF HIS BRUTAL ACT.

John Thompson, who is serving a month's sentence in the county jail for cruelly beating his wife and children, was notified this afternoon that his youngest child had died today and would be buried tomorrow. It was told by Mrs. Lydia Brown, who was appointed guardian of the little ones.

Thompson broke down and cried when he learned of his affliction. He asked to be allowed to see the baby at the undertakers, but the law did not permit the sheriff to give him his liberty, even in charge of a deputy.

Sheriff Rogers told a man who kindly took him to the jail, to consult with the District Attorney and the Judges and ascertain if there was not some way by which Thompson could be allowed to see his dead child.

The man now thoroughly repents the action that landed him in jail.

A few weeks ago Frank Ortiz, who is in jail awaiting trial on a charge of grand larceny, received information that his wife had died. He appealed to the sheriff to allow him to attend the funeral, but a strict construction of the law prevented the leniency.

## GIVEN STOP-OVER IN CITY PRISON.

A. G. Wilson and Charles Miller, two weary wanderers of the road, who arrived at Sixteenth street station last night in a box car, were given a five days' stop-over in the City Prison this morning by Police Judge Smith. The two weary travelers were arrested by Officer Brown for evading payment of railroad fare.

## SMALLPOX CASE IS REPORTED.

Dr. O. C. Hyde reported to the Health Officer today a case of smallpox at the home of Deputy Constable Roberts, 231 Haven street, in the Water tract.

The patient is a young man named Alvin, who came here from San Francisco.

## GREEK BOAT DID NOT MAKE TRIP.

The Greek boat did not make its regular trips today on account of the rough weather on the bay.

## Left all to Niece.

The will of E. M. Bull, who died in Berkeley November 27, 1900, has been filed for probate by executor's wife, Elizabeth Reed. The will was executed in Omaha, Nebraska, four days prior to Bull's death. He leaves all his property to his niece with full power to sell the same in Texas. The estate consists of 750 shares of Verde mining stock valued at \$10 a share. William H. Wente is attorney for the estate.

## Says His Wife Is Insane.

C. J. Chester of 118 East Twenty-first street has had his wife arrested today on a charge of insanity. The woman was taken to the Receiving Hospital this afternoon by the husband and the Oakland police. She claims that she is being persecuted.

## Death of An Actress.

DELIVER, Cole, Jan. 3—Miss West Temple of the city has died of pneumonia at St. Joseph's Hospital.

She is the wife of the late Thomas, who is ill with pneumonia at the Tremont Hotel, in a critical condition.

## Valuable Estate.

Ada E. Ashford, administratrix of the estate of the late Nancy A. Hatch, has petitioned for final distribution of the property. She is the wife of the deceased. Her account shows the estate to be worth \$12,250.

## Coroner's Report.

Coroner McMahon filed his report this afternoon, showing that he had held inquests on sixteen cases of questionable deaths.

# BILLY DELANEY WILL TRAIN CHAMPION JEFFRIES

## Oakland Man Will Be in Charge of the Fighter at His Next Contest With Ruhl.

NEW YORK, Jan. 2.—James J. Jeffries has announced some changes in his training plans for his fight with Gus Ruhl, to take place at Cincinnati. He has decided to locate his headquarters at Loch Arbor, Lower Ashbury Park, N. J., where he will train until about February 10th. Then he will go to Covington, Ky., where he will put on the finishing touches.

Billy Delaney of Oakland has been chosen by Jeffries to act as his trainer and also as his principal second on the night of the fight.

William A. Brady, who has charge of the business affairs of the Saengerfest Athletic Association of Cincinnati, under whose auspices Jeffries and Ruhl will fight, will leave for the Queen City tomorrow. Brady's trip is for the purpose of arranging all the preliminary details.

# BRIGHT OUTLOOK WANTS OPEN DOOR FOR ALASKA IN CHINA

## New Finds Made and a Our Government Will Big Output Certain Insist on Such a Pact for This Year. With the Powers.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Jan. 2.—The output of the Alaskan gold fields for 1901 will be fully \$15,000,000, said Lyman S. Allen of Seattle, who left Nome City on October 25th, at the Waldorf-Astoria last night. "Alaska will soon be to the United States what South Africa is to England," continued Mr. Allen. "One of the vexatious things which the miners had to contend with this year was the intermittent squabbles over claims. The overflow of miners from the Klondike struck us last spring and settled on claims already staked. In some cases they would re-time crooks and drive new stakes, and the original owners have been fighting thousands of these cases in the courts all the year. The gold output for 1900 would have been much larger but for this."

"The bad claims at and near Nome have been worked out, but back on the creeks there is an unlimited amount of gold. I have a good claim on Oregon creek, twenty-five miles from Nome and twenty miles back from the coast."

"The latest important strike is on Kotzebue Sound, Bay of Good Hope, away off to the north of Nome. Another important strike that promises great results is in the Blue Stone creek district, west of Nome, and twenty miles south of Port Clarence, one of the good harbors of western Alaska. The Blue Stone creek district has opened with a rush and it seems to be fully as good as the famous Axel creek, which cleaned up \$2,000,000 this year. One of the peculiar features about Blue Stone is that it was discovered and opened up by 'indians.' An experienced miner and his nephew were asked to go and look it over. The old miner went all over the territory and told his friends that there was not anything there worth the while and came away. Afterward the 'indians' came along and opened the district, with good results."

"Between 6,000 and 7,000 men are wintering at Nome and doing what work they can. All last year there were between 25,000 and 30,000 in and around Nome. The general health was excellent, and in this the people were happily disappointed. The run of typhoid in 1899 led every one to believe that disease would again be prevalent, but the deaths were exceedingly rare this year. There were a good many fights over territorial rights early in the season, but things have settled down now. Judge Stevens sits in criminal cases and Judge Noyes in the District Judge. Both are doing excellent work."

# RAILROADS UNABLE TO GET ENOUGH CARS.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Jan. 3.—The Commercial Advertiser says:

The locomotive works as well as the car shops in this country are overworked. At the New York Central Railroad works he is having difficulty in arranging for delivery of new locomotives. The board of directors are to be notified in the New York Central shops. Railroad men generally are complaining of the scarcity of freight cars and the lack of motive power. Although tens of thousands of new cars and hundreds of new locomotives have been built within the past two years, the abnormal growth of the country has outstripped the steady increase in equipment. Western lines are constantly adding to their Eastern connections for more cars with which to move freight, but the Eastern lines are not able to comply with more than half of these requests.

# FOOTBALL SCORED BY AN EDUCATOR.

Associated Press Dispatches by The Tribune's Special Leased Wire.

SANTA FE, N. M., Jan. 2.—Superintendent of Public Instruction M. C. de Baca in his annual report makes a recommendation for the prohibition of the playing of football in the territorial institutions and the public schools. He regards the game as more brutal than prize fighting. He has gathered statistics showing that last year fifteen boys were killed and 200 seriously injured in the United States while playing football.

# Looking for a Lost Bark.

ASTORIA, Or., Jan. 3.—The revenue cutter Perry will start out today in search of the bark Andra, of which nothing has been heard since she was spoken by the St. Ide on two weeks ago. Pilot Cordier of this port is aboard the bark.

# MUNYON'S RHEUMATISM CURE

When Prof. Munyon says his Rheumatism Cure will cure rheumatism there isn't any fair element about it. It does just what it says it will do. It cures more quickly than people expect. It cures without leaving any ill effects. It is a splendid stomach and nerve tonic, as well as a positive cure for rheumatism.

All the Rheumatism remedies are just as reliable. Any druggist, or visit. The Cure to Health is free, so is medical advice. If you write to Broadway and 25th St., New York.

## Butter and Milk Supplied By Farmers Are All Right. Friends of Uncle Sam in a Majority in the Convention. Gen. Miles Would Model It After England's Indian Forces.

Dairy Bureau Makes Its Annual Report to the Governor.

The third report of the State Dairy Bureau to Governor Gage, covering the period from October 1, 1898 to October 1, 1900, has just come to hand. It will be found of exceeding interest and much value to people in the dairy business. It shows that the meetings of the Bureau are held quarterly at 111 California street, San Francisco, and that special meetings may be called when necessary.

**OBJECT OF THE BUREAU.**

The purpose for which the Dairy Bureau was originally created was to regulate the manufacture and sale of oleomargarine and filled cheese—substitutes for butter and cheese, which were then being extensively manufactured, and still more extensively sold, throughout the State under the guise of pure butter and cheese. The object was to protect the dairy interests of the State from the indiscriminate sale of these fraudulent articles in competition with the products of California dairies.

The report shows that only an insignificant amount of these goods are now brought into this State and that the manufacture of them here has been entirely suppressed. Despite this fact, they are being manufactured in defiance of law in other States, the output for last year having been the enormous amount of \$3,419,511 pounds.

The report then goes on to show, in a number of cases, how restaurant men and others were fined in various parts of the State for the sale of oleomargarine without displaying visible signs or giving notice of the same.

**CONDENSED MILK ANALYSIS.**

Speaking of the analyses made of condensed milk and cream, the report shows that the milk used in the manufacture is, in the general case, simply condensed skim-milk sweetened with cane sugar.

**"SHORT-WEIGHT BUTTER."**

In an article on "short-weight butter," the report tells how, originally, it was understood that a "square" or "roll" of butter should weigh two pounds. Then came a demand for "short" packages and now, the report continues, "these packages became so popular that unless the producer complied with the demand for the lighter packages, his product lagged in the market, and was sold for a less price. The cutting down of the packages has continued, until now it is apparent that eighty per cent of the butter is packed in 'short-weight' packages, and the consumer blames the dairyman for the seeming injustice."

**DAILY INSPECTION.**

The importance of dairy inspection and the law which renders it possible are both commended by the Board. It is shown that 82 dairies were inspected, 32 of which were in an unsatisfactory condition. The number of cows inspected was 41,223, and of these 556 were condemned as unfit for dairy purposes.

**ALAMEDA COUNTY BUTTER.**

During the past year Alameda county produced 148,400 pounds of butter by the creamery and 170,070 by the dairy method, making a total of 318,470 pounds. Alameda county led in the butter output, the total being 4,269,075 pounds. The total output of all the dairies and creameries in California the past year was 28,782,879 pounds.

**CHEESE IN CALIFORNIA.**

The cheese manufactured during the year was 1,295,569 pounds as against 5,243,923 pounds for 1900. In this showing Alameda county is not represented. The decrease in the production of cheese is due to the introduction of creameries and skimming stations to which the milk of former cheese manufacturers is being sold instead of made into cheese. The decreasing production gives room for the importation of a large portion of the cheese used in the State from the East.

There are four factories of condensed milk in California and their output in 1900 was 75,592 cases.

San Francisco consumers annually 12,761,617 gallons of milk, of which Alameda county furnishes 242,050.

**DAIRY INCOME.**

Based on the different products of dairies that are turned out annually, and including the value of calves produced on dairies and of hogs raised on the by-products of dairies (creameries and cheese factories), which in itself is a large item, the annual income from the dairy industry of the State for the year ending October 1, 1900 was as follows:

Value of 23,782,882 pounds of butter	\$3,260,074
Value of 4,932,960 pounds of cheese	603,986
Value of 68,223 cases of condensed milk	276,258
Value of milk and cream consumed	5,587,403
Value of calves from dairy cows	1,293,276
Value of hogs produced on dairies and creameries	1,492,238
Total	\$12,493,272

This represents an increase over the product of last year of \$2,355,647.

**ALAMEDA COUNTY CREAMERIES.**

There are 317 creamery plants in the State, an increase of 34 over those of last year, and these use 633 centrifugal milk separators. The creameries credited to Alameda county are the following: The Livermore, the Jersey at Alameda City and the Central Creamery and Oakland Cream Depot of this city. The report closes with the law relative to butter and cheese, the dairy inspection law, the "process" butter law, and the State veterinarian act.

# WANTS GOVERNMENT TO OWN CABLE LINES.

Associated Press Dispatches by The Tribune's Special Leased Wire.

OTTAWA, Jan. 2.—Sir Sanford Fleming, Minister of Railways, has written a long letter to William Mulock, Postmaster General, in favor of a telegraph service to the globe and owned by the State. The letter is not the least bit of a movement to nationalize the cable and telegraph service of the empire. The matter, the writer says, affects Canada as well as Australia.

The arrangement for the establishment of the Pacific cable has been completed. The arrangement implies joint ownership, and in the opinion of Sir Sanford it is the harbinger of a complete system of state owned telegraphs by land and sea.

With the telegraph system nationalized as suggested, Sir Sanford says that messages could be transmitted at one-eighth or one-tenth the rates now levied by the companies. In concluding his letter the writer says: "The British subject of the cable in Australia, New Zealand, India, Africa, as well as in the mother country, must insist in securing complete emancipation from the grasp of the great cable companies. The threat of the twentieth century high imperial interests demand the cheapest possible telegraph transmission and the greatest possible freedom of international communication. The subjects of her majesty domiciled around the globe, respectively, must, therefore, take action cannot be taken a day too soon to nationalize our telegraph system by land and sea throughout the whole empire."

# SAY PACKERS USE CATFISH FOR SALMON.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Jan. 3.—The Journal of Commerce says:

It is stated in West Side cannery circles that the matter of discovering the author of the rumor or report recently published to the effect that coast packers of salmon were canning Louisiana catfish and branding it as salmon has been turned over to the consideration of the United States Fish Commission. The rumor or report it appears was taken seriously in certain East Side quarters, particularly among the Hebrews, who are said to have been alarmed by the rumor. The total of the catch of catfish, declined to buy salmon in many instances. This action resulted in some loss of trade to canned fish dealers here.

# NEW PHASE OF SUFFRAGE FIGHT.

Associated Press Dispatches by The Tribune's Special Leased Wire.

ROCHESTER, N. Y., Jan. 3.—The latest development in the woman suffrage fight here is the action of a century ago when Susan B. Anthony and her sister, Mary S. Anthony, were arrested and fined the stand taken by Mary S. Anthony in the case of the "Suffrage Society." She sends notice to County Treasurer Hamilton that she will not in the future pay taxes except under protest, until she is allowed the right of suffrage.

The action will likely result in a test case being brought in the court.

**Currency Shipments.**

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Jan. 2.—A compilation of the sub-treasury for local banks shows a total for December of \$5,100,000, of which \$4,700,000 went to New Orleans and \$400,000 to Chicago. The total of the month's shipments through the sub-treasury to the end of the year is as follows: Chicago, \$4,700,000; Kansas City, \$2,000,000; St. Paul, \$1,000,000; New York, \$1,000,000; East, \$1,000,000; South, \$1,000,000; New Orleans, \$15,600,000. Total, \$42,000,000.

# COLDEST DAY IN CITY FOR GREAT MANY YEARS

## Weather Prophet Sanborn Tells of the Cold Snap and Makes Some Predictions About a Storm.

Last night and this morning the people of this city and county experienced what they considered a blast from the frigid region of the Dakotas. They gathered about fires, piled on the wood and coal and tried to be comfortable. Those who went abroad put on arctic clothing and hurried along evincing no desire to dally with the piercing breezes which seemed to come from all points of the compass.

And yet neither last night nor this morning was nearly so cold as people thought. The effect of the cold wave was intensified by a strong breeze which at times attained to a velocity of between thirty-five and forty miles per hour.

At no time last evening was the temperature lower than 45 degrees, while this morning it had made an ascent to the 29 degree mark.

"This morning," said Weather Prophet Sanborn, "was not by any means the coldest of the season. It was only 50 degrees and that is not very low. Last night it went down to 45, but the wind which prevailed at the time made people believe that the temperature was much lower."

"This stormy, gusty weather is a taste of what is being experienced all around us in this State and in adjoining States. There is snow up north and in the east and south there are rain and wind and cold too."

**THE COLDEST DAY.**

"The coldest day of this year was Jan. 2, 1900."

\*\*\*\*\*

"Last Tuesday, when the temperature was 22 degrees, there was ice one-third of an inch thick in a tub out at my place. This cold will have a beneficial effect upon fruit because it will keep the buds from premature sprouting and will keep the more hardy from budding until the proper time in the spring."

**SOUTHEASTERN COMING.**

"The storm of last night was a pleasant surprise about to break upon us. The wind seemed to have a real rest in that quarter but it was unstable. But I want to tell you that it is getting down there and is going to come back to us blowing a regular California sou'wester. It will be here, I judge, in the form of a regular, hot, late winter storm. It will bring rain with it, and that is just what we want. We need three or four good days of rain and this will give the ground a good soaking, something which it has not had for three or four years. The ground is very dry below, and needs several days of good soaking before we can expect to have a good fruit crop next year. Yes, this storm will be unpleasant, of course, but it will be a blessing in disguise."

# WESTERN GOLFERS RAILWAY COMBINE DISGRUNTLED. A MYTH.

## Claim Championship Games are Held Too Early for Them. No Possibility of a Trust to Control All the Lines.

Associated Press Dispatches by The Tribune's Special Leased Wire.

NEW YORK, Jan. 2.—There is a movement on foot among Western golf players to disintegrate the existing championship of the Western Golf Association has been decided. George H. Thorne, president of that association, has called a meeting to discuss the proposition, and strong influence will be brought to bear on the executive committee of the National Association to accomplish the desired result.

This would mean holding the Western championship earlier than heretofore, but probably the amateur championship later. Western golfers maintain that July is too early to permit of a practice for such an important contest. Arthur L. Bowen, vice-president of the Western Golf Association, has put in a strong plea for a later date. He says:

"The amateur event has always been held too early in the season to permit of a representative Western (strictly Eastern players in many instances) to play all the year. The best players are out on the links at least a month and sometimes two months ahead of Westerners. Of course, this is a great advantage, as our country is generally not in the best of condition in July. It is too early to permit of a practice for such an important contest. Arthur L. Of course, this is a great advantage, as our country is generally not in the best of condition in July. It is too early to permit of a practice for such an important contest. Arthur L. Bowen, vice-president of the Western Golf Association, has put in a strong plea for a later date. He says:

"The amateur event has always been held too early in the season to permit of a representative Western (strictly Eastern players in many instances) to play all the year. The best players are out on the links at least a month and sometimes two months ahead of Westerners.
